

RandomizeIT® allows sites to enroll, screen fail, randomize, and terminate subjects in clinical trials using either a Web browser or a telephone. Users have two portals (telephone and Internet) to permit entry of site data.

Sponsors and monitors can view and print enrollment logs and randomization data online 24 hours a day, 7 days a week from the RandomizeIT® Web site. Randomization confirmations can also be sent via email and by FAX if requested.

RandomizeIT® permits sponsors to:

- Track study metrics (including dates of visits and disposition codes)
- Distribute medication kits and laboratory kits to sites based on enrollment
- Pay sites based on up-to-date study logs which may enhance subject recruitment
- Uses CompleteWare unified user logon
- Is compliant with 21 CFR Part 11 requirements for electronic records

ran-dom-ize-it (ran'dəm iz'it)
Providing an on-line computer database accessible by telephone systems and other electronic systems, namely, the Internet and direct computer connection for capturing and managing clinical trial data in the field of drug development; a registered servicemark
